## Community Coin Project

In the age of digital transformation, people everywhere are being connected globally. It has produced large transfers of information enlightening us to collectively become aware of government and philanthropy’s failure or inefficiency to keep the promise they have made to humanity: to care for those in need.

While the world rushes forward to new heights, a large proportion of people are left behind and old wounds are not even attempted to be healed or corrected. Certainly, much has been improved on many levels over time. However, it falls very short when you compare the common progress to the progress of the privileged.

One would think that with the trillions in taxes that are paid annually in the USA alone, much could be accomplished in concert with the hundreds of billions donated by charity. What most people don’t understand is that government and charity is big business. Government subsidized \$50 billion in philanthropy alone, in 2017. Unfortunately, even with billions of dollars, these entities lose their way, become bloated, partisan, and self-serving. And the most vulnerable of us suffer the most, and the worst.

Another insight this digital connection has provided is the plight of people. Not only around the world, but in our own neighborhoods. You can see it everywhere, if you look. 1000-year-old issues still plague us.

Climate Change	Hunger	Recidivism
Racism	LGBTQ+ Rights	Voter Suppression
Education	Poverty	Voting Rights
Healthcare	Elderly Support	Legal Services
Homelessness	Racial Inequality	Wage Inequality

With the advent of blockchain technology, Community Coin can leverage this digital transformation into actual philanthropy by creating a truly democratic community and process to bring real change directly to the oppressed and underserved in all communities without any fear of having your efforts ‘repurposed’ for someone else’s greed or ego.

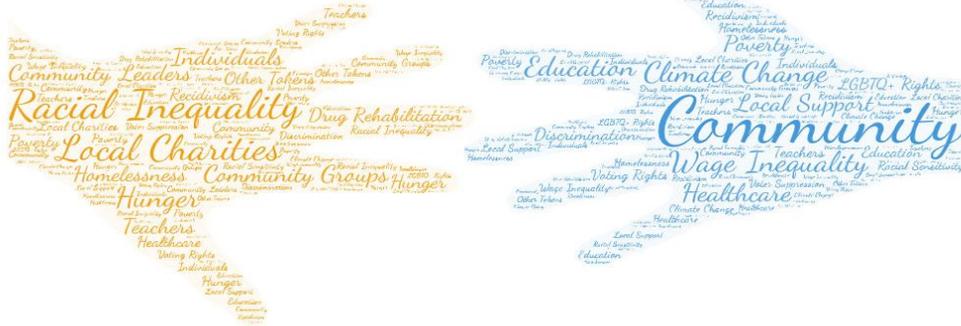

# VISION

*“We cannot seek achievement for ourselves and forget about progress and prosperity for our community... Our ambitions must be broad enough to include the aspirations and needs of others, for their sakes and for our own.” – Cesar Chavez*

*“How wonderful it is that nobody need wait a single moment before starting to improve the world.” – Anne Frank*

*“It only takes one person to mobilize a community and inspire change. Even if you don’t feel like you have it in you, it’s in you. You have to believe in yourself. People will see your vision and passion and follow you.” – Teyonah Parris*

At the heart of Community Coin is the drive to support those of us in the community that make a real difference in individual lives. Most times, these individuals go unnoticed and unsupported. In order to effect real change in our communities, Community Coin intends to revolutionize and disrupt the charity society by changing the approach to community philanthropy and social change. At Community Coin, we believe that the power to change written policies and unwritten culture is achievable together.

And not only that. People who give support deserve to be rewarded as well. The Community Coin COMM token was created to reward both holders and charities. Charities will receive funds and Comm token holders receive 5% reflections for each transaction.

We believe this direct and unencumbered method will serve as a great landmark for others to follow. We also believe that this success can expand beyond borders and serve ALL our neighbors, wherever, and however, their community exists.

As you can see, from all walks of life, and from all communities, our vision is nothing new. Together, we just want help make the world a better place for all our neighbors. Local and global. And do so without hindrance or interference.

# MARKETING

We are focused on creating a community that loves to support solutions for societal issues. Charity and social justice have never been more of a mainstream topic than it is now. To achieve our goals, as with any venture, Community Coin must raise funds to develop brand awareness. Since our goals are not tied to technological requirements, marketing will be the most crucial aspect of success.

COMM will create a grassroots marketing campaign to spread our message throughout social media and enlist the support of users and influencers that want to see real change in their communities. We are a platform from the people to the people, and our marketing strategy is the perfect example.

We will also enlist people active in the COMM community to work on our platforms as moderators, administrative staff, and brand ambassadors. This will provide an open, trusting, feedback-based communication for early adopters and to continue a holistic efficacy of the COMM vision.

This will allow us to quickly raise public awareness, how it will support causes, and educate the existing client base in the Crypto community that helping communities is not only personally rewarding but rewarding for everyone in our world.

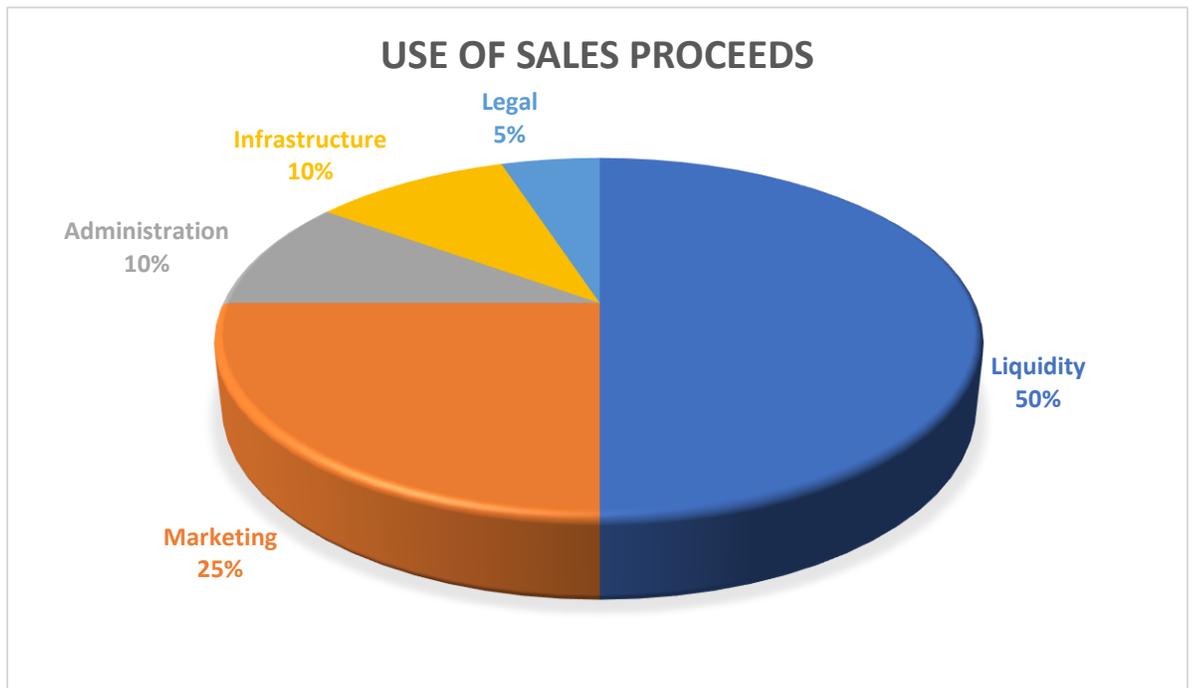

Our first steps will be to:

- Target multiple advantageous social media channels based on industry.
- Create a website to improve online visibility and effectiveness via SEO to garner target market exposure.
- List Community Coin in appropriate directories.
- Direct outreach to social media influencers
- Direct outreach to leaders in the fields of charity and social justice.
- Launch Token Airdrops and Bounties to create buzz and interest

After extensive broadcasting of Community Coin and its message, a Private Presale, a Crowdsale, and an ICO will be held.

Based on the previous marketing efforts, online following, and discussions with Advisors, token supply and pricing will be created accordingly to foster the best results for the ICO launch of Community Coin COMM.

Proceeds will be reinvested in Community Coin COMM. **5% will be placed into a legal fund.**

---

COMM is built on the Binance Smart Chain (BSC), a blockchain with a full-fledged environment for high-performance decentralized applications. COMM is created on the BEP20 Mainnet (BSC) blockchain model and COMM tokens are BEP - 20 standard. This token standard is one of the most common Ethereum token standards. BSC has smart contract functionality and compatibility with the Ethereum Virtual Machine (EVM). This allows the blockchain community to leverage the best that Binance Chain has to offer, fortified by smart contract support and cross-chain interoperability.

This blockchain delivers many innovations thanks to its high performance and ample space benefiting a variety of parties including validators, token holders, developers, and users. It also enables a higher data feed, provides compatibility to integrate with Ethereum, including future upgrades.

Other reasons for building Community Coin on the BSC blockchain include:

- A rich and growing digital asset ecosystem
- The BSC blockchain allows adding different digital asset model for different business use cases, as in the case of COMM
- Its flexibility allows improving client-side experience to manage wallets and use the blockchain more conveniently
- BSC achieves approx. 3-second block times with a Proof-of -Stake Authority
- Cheap transaction fees as low as 1 cent
- Cross-chain DeFi mechanisms that increase DeFi interoperability
- A supportive Binance ecosystem that funds and bootstraps DeFi projects
- A growing ecosystem of millions of users across Binance
- A network of major crypto projects already collaborating with BSC
- The platform's compatibility with the token permits a third-party wallet, adoption into exchanges, and provides an easy integration to most applications.

# TOKENOMICS

Token Name:	Community Coin
Token Symbol:	COMM
Decimals:	18
Burn:	Manual
Liquidity Pool:	5% of Transaction Fee
Reflections:	5% of Transaction Fee

## LIQUIDITY POOL

Automatic Liquidity Generation will occur via Transaction Fees (5%) and the Liquidity Pool will be locked.

## REFLECTIONS

Token holders earn rewards through autonomous yield protocol. This is funded by the transaction fee for each sale. This protocol allows 5% of all transaction fees to be automatically distributed to users holding the COMM token. The amount of reward is variable depending on the number of tokens held by the user.

## COMMUNITY COIN MANUAL BURNS

Automatic burns can help the health of a token in its nascent stage, but they can equally cause damage in later stages. By manually controlling the burn, it will provide better rewards for the holders and the health of the coin over its lifetime. The burn amounts will be advertised, informing holders of the current circulating supply. This will maintain the value and transparency of Community Coin COMM and keep it competitive in the Crypto space.

# GIFTS

The purpose of Community Coin COMM is to support our communities and determine, as a community, where our efforts should be utilized. With that in mind, all Community Coin COMM holders will be able to nominate and vote for a cause they believe needs attention and support.

As these issues are brought to light and voted upon by the community, each one with the highest number of votes will receive rewards. As Community Coin COMM becomes more mainstream and increases in value, more issues can be supported and rewarded. Below you will find the levels of support for positive change makers.

As Community Coin COMM hits certain landmarks in the market cap, donations to communities will be made to change makers that the community has determined to be most needed at that time.

### *Payout to community causes and change makers*

Market Cap	\$1K Grant	\$10K Grant	\$20K Grant	\$200K Grant	\$1 Million Grant
1 Billion -		10			
5 Billion -		10	1		
10 Billion -		5	5		
50 Billion -			10		
100 Billion -	50			1	
1 Trillion -					1

# VOTING

A user-friendly voting mechanism will be implemented on the website and details broadcasted through our social media channels. We encourage positive discussion on our social media outlets for the merits of those nominated and will add a discussion board on the website if necessary. We would like a full and through discourse on all reasons and aspects of nominees so the community can make a well-informed choice.

Nominee information and those receiving funding will be readily available on the website.

The voting features will include:

- Ability to nominate
- Only tokens in circulating supply can vote. Held tokens (i.e., Team, Marketing, etc.) are not eligible to vote on projects.
- Coin Holders will be able to spread their vote among competing causes or people

# LEGAL TERMS

Community Coin members must abide by all guidelines set forth in this white paper, our Terms of Use, Privacy Policy, and all local governmental laws. Community Coin does not take responsibility for actions of our users. All users must abide by local laws and regulations set forth in their respective country regarding cryptocurrency and cryptocurrency services. The Community Coin (COMM) token is not a digital security, commodity, or any other kind of financial instrument and has not been registered under the securities law of the United States, Malta or any other country. Community Coin (COMM) tokens cannot be used for any purpose other than those specified by Community Coin in our white paper and user agreement. Community Coin (COMM) tokens give no rights and are sold as a functional utility for our platform. By using the Community Coin (COMM) token, users agree the Community Coin (COMM) tokens are not securities and shall not be considered such. Community Coin (COMM) tokens are not official or legally binding investments in any right. Community Coin makes no promises of profit for buying any Community Coin (COMM) tokens our using our platform. All prices of digital assets are controlled by general market consensus of value.

# DISCLAIMER

The sole purpose of this whitepaper is to present Community Coin and COMM coins to potential token holders in connection with the proposed token sale. The information set out below may not be exhaustive and does not imply any elements of a contractual relationship nor does it represent a financial advice. While every effort has been made to ensure that any material in this whitepaper is accurate and up to date, this document and materials contained herein is not professional advice and in no way constitutes the provision of professional advice of any kind, you are invited to make your own research on the document and materials. To the maximum extent permitted by any applicable laws, regulations and rules, Community Coin does not guarantee and does not accept legal responsibility of any nature, for any indirect, special, incidental, consequential or other losses of any kind, in contract or otherwise arising from or related to the accuracy, reliability, relevance or completeness of any material contained in this whitepaper. This document is a marketing document and is not to serve as legally binding. Nothing in this document shall be deemed to constitute a prospectus of any sort or a solicitation for investment, nor does it in any way pertain to an offering or a solicitation of an offer to buy (or sell) any investments in any jurisdiction and should not be construed as such. The information in this document does not constitute a recommendation for any person to purchase COMM. If you decide to purchase COMM, you do so at your own risk and responsibility.

No regulatory authority has examined or approved of any of the information set out in this whitepaper, and no such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. Although Community Coin does its best to comply with all the applicable laws and regulations, the publication, distribution or dissemination of this whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied.

COMM coins are not and will not serve to constitute securities, digital currency, commodity, or any other kind of financial instrument and have not been registered under relevant securities regulations, including the securities laws of any jurisdiction in which a potential token holder is a resident. Certain statements, estimates and financial information contained herein constitute forward-looking statements or information. Such forward-looking statements or information involves known and unknown risks and uncertainties, which may cause actual events or results to differ materially from the estimates or the results implied or expressed in such forward-looking statements. For avoidance of doubt, nothing contained in this whitepaper is or may be relied upon as a guarantee, promise, representation or undertaking as to the future performance of Community Coin and/or COMM coin, and/or promise or guarantee of future profit resulting from the purchase of COMM.

---

## LIMITATION OF LIABILITY

In no event shall COMMUNITY, members of Community Coin staff, contractors, or volunteers be liable for: Any lost profits, lost savings or incidental, indirect, special or consequential damages, arising out of your use or inability to use the services or products offered by Community Coin or the breach of any of these Terms by any third party;

Any security risk such as hacker attacks, loss of password, loss of private key, or similar. Mistakes or errors in code, text, or images involved in the sale, any losses resulting from the volatility in pricing of Community Coin in any countries and crypto currency exchanges. This website and the Community Coin tokens are provided on an “as is” basis and without any warranties of any kind, either expressed or implied. You assume all responsibility and risk with respect to your use of the website and purchasing of any amount of the Community Coin tokens and their use. If applicable law does not allow all or any part of the above limitation of liability to apply to you, the limitations will apply to you only to the extent permitted by applicable law. By acquiring Community Coin’s Token and to the extent permitted by applicable law, the buyer agrees not to hold Community Coin’s Token or any employee or contractor of Community Coin liable for any losses or damages arising out of or in any way connected to the buyer’s failure to properly secure the private key to the wallet containing their Community Coin Tokens: hacker’s attacks, stolen devices, loss of passwords, etc.

## NO REPRESENTATION & WARRANTIES

Community Coin and/or the Distributor does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Whitepaper.

## PRIVACY POLICY

By purchasing COMM Tokens, you agree to your personal data, i.e. e-mail address and/or name, being processed by COMM for its business purposes or the purposes of building, promoting, and communicating (about) the COMM system and the COMM Tokens. For more information, please refer to our privacy policy located at: <https://commcoin.org/privacy-policy/>

## RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION

The distribution or dissemination of this Whitepaper or any part thereof may be prohibited or restricted by the laws, regulatory requirements and rules of any jurisdiction. In the case where any restriction applies, you are to inform yourself about, and to observe, any restrictions which are applicable to your possession of this Whitepaper or such part thereof (as the case may be) at your own expense and without liability to COMM and/or the Distributor.

Persons to whom a copy of this Whitepaper has been distributed or disseminated, provided access to or who otherwise have the Whitepaper in their possession shall not circulate it to any other persons, reproduce or otherwise distribute this Whitepaper or any information contained herein for any purpose whatsoever nor permit or cause the same to occur. This material is to be considered confidential and its distribution to you is strictly limited to the purpose of the distribution.

## REPRESENTATION & WARRANTIES BY YOU

By accessing and/or accepting possession of any information in this Whitepaper or such part thereof (as the case may be), you represent and warrant to Community Coin and/or the Distributor, as follows:

- (a) you agree and acknowledge that the Community Coin tokens do not constitute securities in any form in any jurisdiction;
- (b) you agree and acknowledge that this Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no crypto currency or other form of payment is to be accepted on the basis of this Whitepaper;
- (c) you agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Whitepaper, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this Whitepaper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;
- (d) you agree and acknowledge that this Whitepaper, the undertaking and/or the completion of the Community Coin Token Sale, or future trading of the Community Coin tokens on any crypto currency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the Community Coin and/or the Distributor, the Community Coin tokens, the Community Coin Token Sale, the Community Coin Wallet, and the Community Coin Exchange;
- (e) the distribution or dissemination of this Whitepaper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to Community Coin and/or the Distributor;

- 
- (f) you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;
- (g) you are fully aware and understand that in the case you wish to purchase any Community Coin tokens, there are risks associated with Community Coin and the Distributor and their respective business and operations, the Community Coin tokens, the Community Coin Token Sale, the Community Coin Wallet, and the Community Coin Exchange (each as referred to in the Whitepaper);
- (h) you agree and acknowledge that neither Community Coin nor the Distributor is liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you; and
- (i) all of the above representations and warranties are true, complete, accurate and non misleading from the time of your access to and/or acceptance of possession this Whitepaper or such part thereof (as the case may be).

This paper is for general information purposes only. It does not constitute investment advice or a recommendation or solicitation to buy or sell any investment and should not be used in the evaluation of the merits of making any investment decision. It should not be relied upon for accounting, legal or tax advice or investment recommendations. This paper reflects current opinions of the authors subject to potential mistakes of the same.
